

Ascension Kindergarten Parents' Involvement Group

At Ascension Kindergarten, we believe in developing the child as a whole. We also believe that a strong partnership must exist between the parents and the school. Only then are we able to bring out the best in a child. Ascension has been sponsoring, for many years, a specially designed programme to foster this cooperation.

The "I Can Cook" programme for **K2** children is one such example. Parent-volunteers help us to facilitate a simple but fun cooking session for the children.

The recipes used in these cooking sessions are really simple - you don't have to worry about your culinary skills! All we need is your time and passion to work with children. In the process, you would be imparting your valuable insights and experience on social and safety aspects to the children.

Once a week, the **K1** and **K2** would go to the library to borrow books. Our parents can come in to be the Librarian under the "Library" programme.

Through the years, we have seen the pride on the children's faces when they know that their parents are involved in Ascension's activities. We urge you to take up this opportunity to be a parent-volunteer and be part of the Ascension Family. You would not only enrich your child's learning environment but also be part of his/her memory of Ascension Kindergarten.

Kindly fill up the details below and pass to the respective class teacher or drop it in the office.

Thank you
Yours sincerely

Jenny Lee-Kwek
Principal
